NO LANDFILL BINS

- In 2021 we removed all landfill bins – including staff rooms.
- We not sell any items in café's that have packaging that needs to go to landfill
- Worked with vendors to eliminate single use packaging -
Cookie Time- Compostable cookie bag!
- Sorting stations on both resorts to separate materials.
- Measuring system to record data.
- Organic waste – to compost facility at base of mountains.
 - Compost Facility – Cardrona
 - Glendhu Bay Worm Farm – Treble Cone

We have no landfill bins!

In Winter 2020 we sent over **50 TONNES OF WASTE TO LANDFILL** from Cardrona & Treble Cone.

We are working towards zero waste to reduce our environmental impact.

- 

Our cafés do not sell anything that needs to go to landfill
- 

Please take your rubbish home with you - take a paper bag if you need one
- 

Our staff sort recycling by hand so please use the the sinks provided to rinse containers etc and only place recyclable Items in those bins.

WASTE REDUCTION COLLABORATION

There are enough clothes on the planet right now to dress the next six generations. That is why we are taking action against textile waste with Re-Action, an initiative with Wastebusters to repurpose old RealNZ uniform.

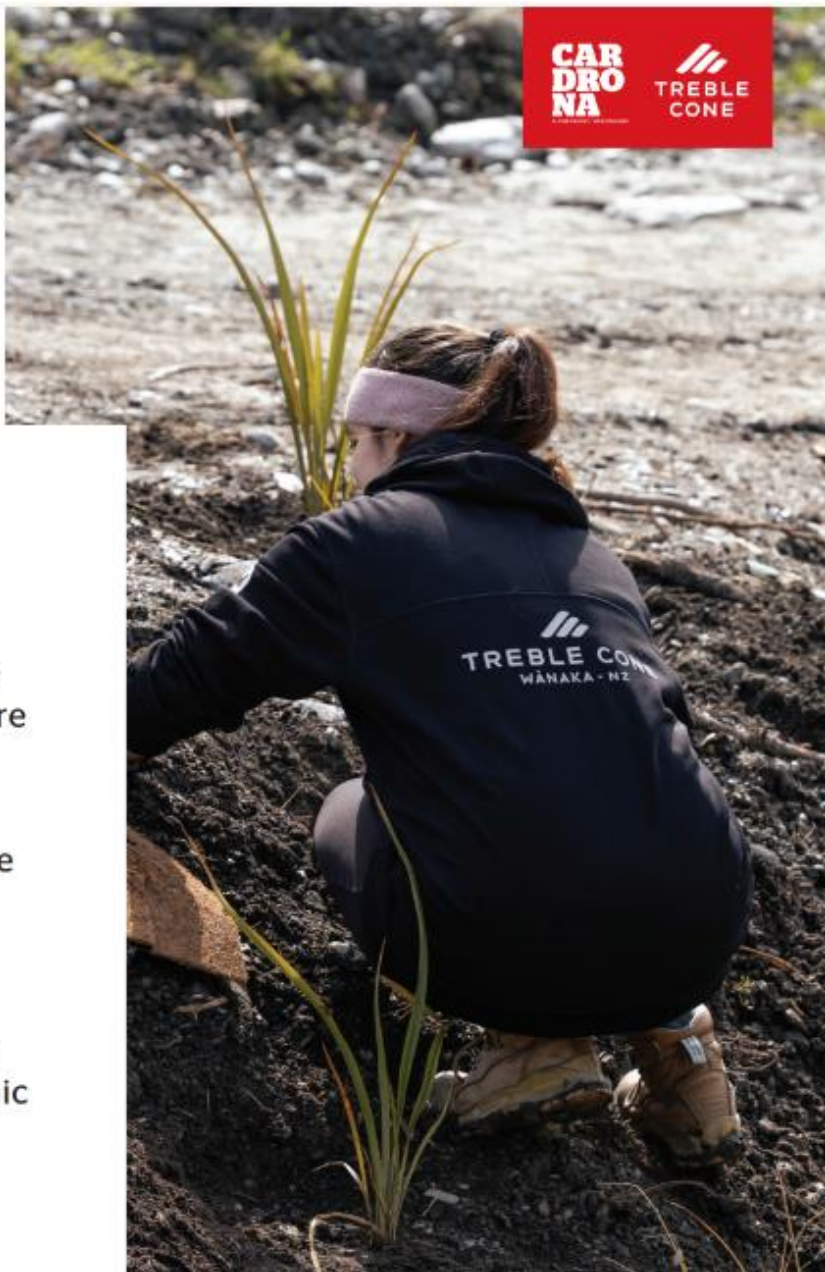

We will enhance the life force of the maunga and nurture its ecosystem.

By planting thousands of native trees and shrubs, the land will be regenerated.

There will be more habitats for endemic lizards, birds, and insects to thrive.

The KĀREAREA PROJECT

HAVE YOU SEEN A KĀREAREA?

They are NZ's only native falcon and a taonga species.

Report your sighting to us and help provide data to inform effective conservation.

By surveying and monitoring nests, we are studying population and territory size, breeding success and trends, as well as many other factors.

RIDE TAMARIKI

Every child in our region should be able to ski or ride if they want to.

We connect with local schools and community organisations to recognise kids and families who may need support to get skiing and snowboarding.

Our initiative provides day and overnight snow experiences run by a dedicated team of volunteers.

PREDATOR FREE MAUNGA

We want Aotearoa full of native wildlife that is safe from extinction.

But some taonga species are threatened by introduced predators.

By removing predators, we will protect and enhance the biodiversity of the maunga.

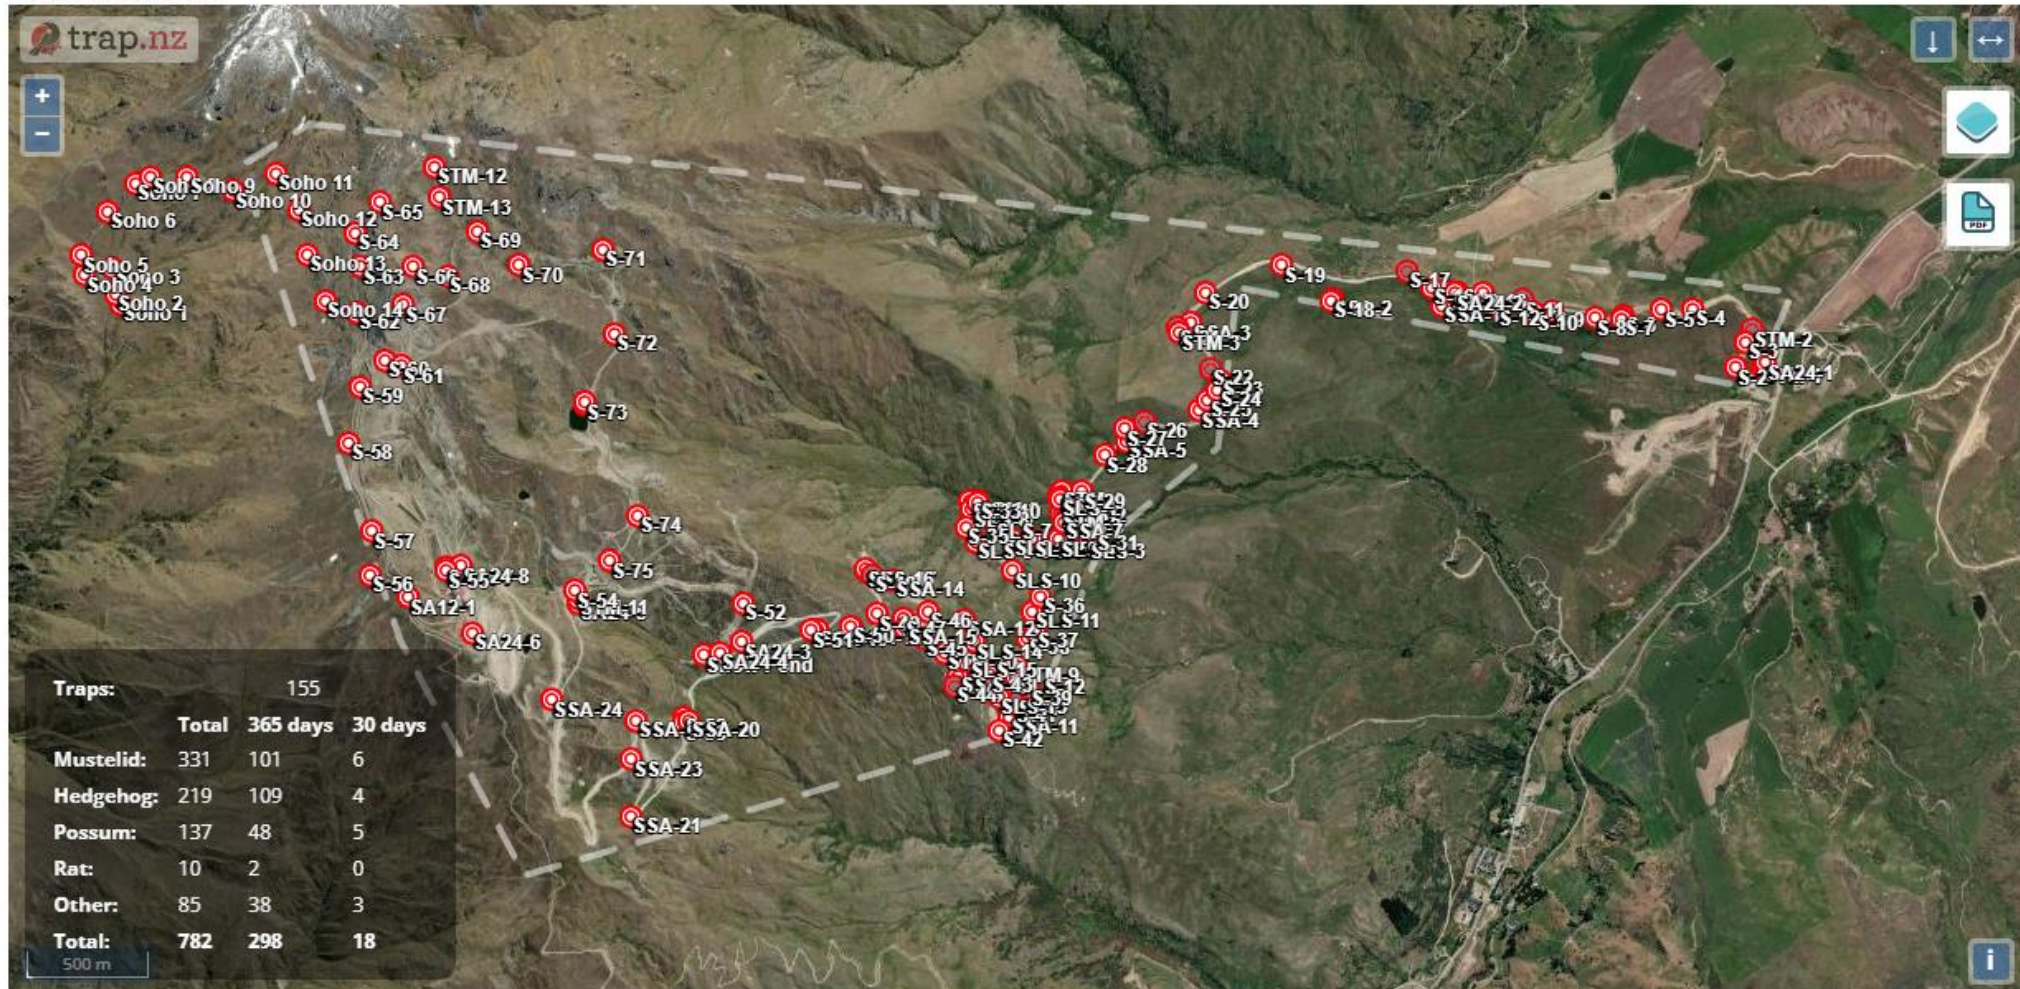

Help our native species thrive at TC and Cardrona and join us to assist Predator Free 2050.

Cardrona Alpine Resort

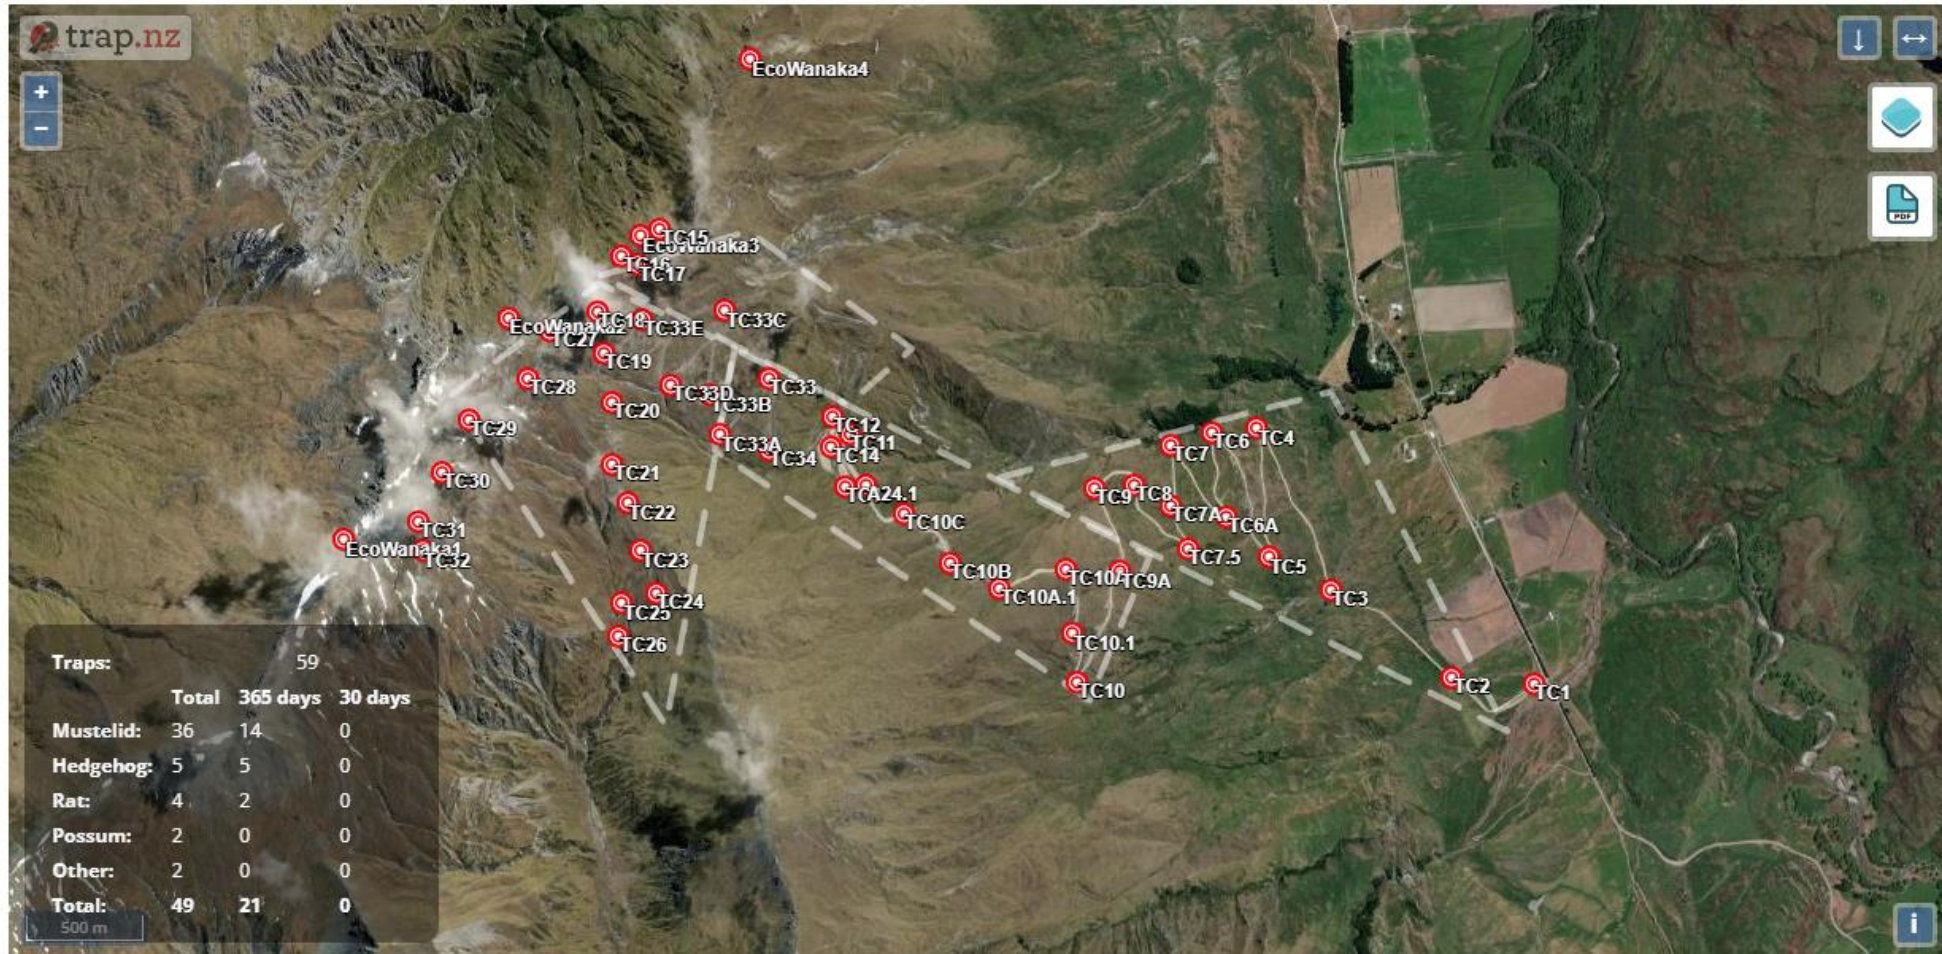

The entire Cardrona Alpine Resort area, including access road, is to be covered with a comprehensive trapping programme as part of our effort to protect the native Karearea with which we share our Maunga.
